Dear Member,

The IEK Weekly Newsletter covers recent IEK events and upcoming ones, activities by the various committees, and any upcoming developments that affect Engineers and the Built Environment. This newsletter is a roundup of activities in the 2nd Week of September 2026 (IEK/NL/202).

IEK Engages NaMATA Leadership on Strategic Transport and Engineering Partnerships

Tuesday, 8th September, 2026

The Institution of Engineers of Kenya (IEK) led by the President Eng. Harrison Keter, had a high-level delegation to meet with Nairobi Metropolitan Area Transport Authority (NaMATA) Director-General Eng. Francis Gitau. The IEK delegation included 2nd Vice President Eng. J.R. Otieno Ogallo and Capital Branch Chair Eng. Radiance Mungu.

The engagement focused on several core areas critical to the future of Kenya's transport sector and the engineering fraternity:

- **Engineering Professionalism:** Elevating standards, ethics, and technical proficiency across all engineering dockets within NaMATA.
- **Mass Rapid Transit System (MRTS) Collaboration:** Strengthening NaMATA's institutional capacity through joint efforts to ensure the delivery of safe, efficient, and seamlessly integrated metropolitan transport networks.
- **Strategic Partnership Framework:** Outlining a comprehensive Memorandum of Understanding (MoU) focused on capacity building, professional internships, technical knowledge exchange, and collaborative project reviews.
- **Advancing "Buy Kenya, Build Kenya":** Creating clear avenues to increase the participation of local Kenyan engineers, consultants, and enterprises in major national infrastructure projects.
- **The 33rd IEK Annual International Convention:** Highlighting key alignment opportunities ahead of the upcoming convention scheduled for 24th – 27th November.

This strategic dialogue underscores IEK's commitment to advocating for local technical talent and driving sustainable, world-class infrastructure development in partnership with key government agencies.

PICTORIALS

IEK Participates in 5th Nairobi Caucus by the National Counter-Terrorism Center on Protecting Critical Infrastructure

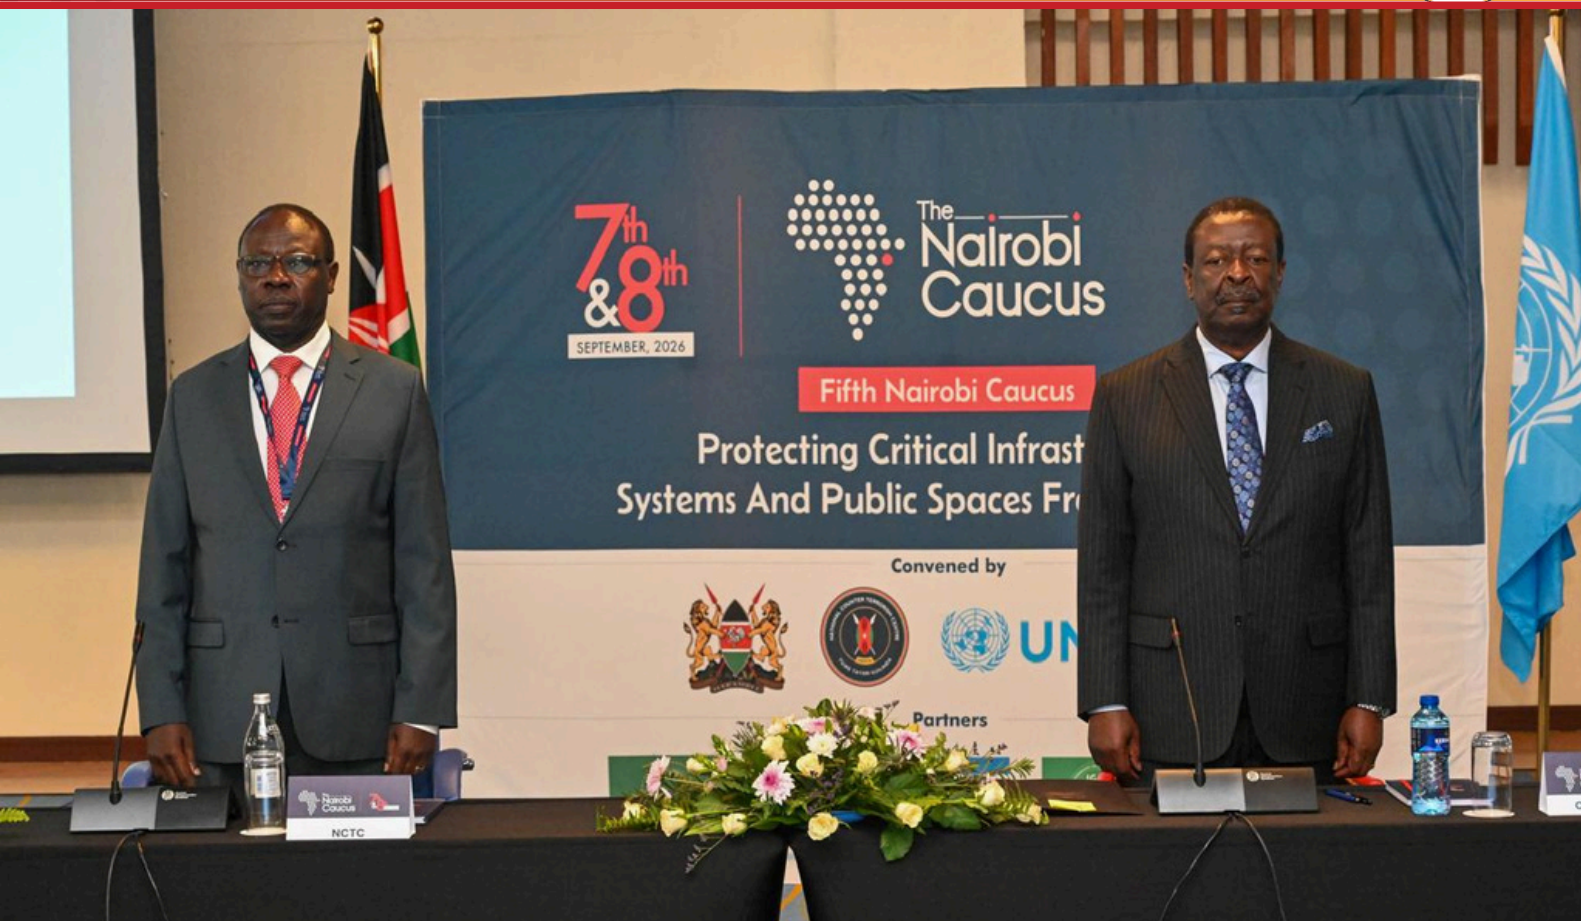

Tuesday, 8th September, 2026

IEK Honorary Secretary Eng. Grace Kagundu represented IEK at the 5th Nairobi Caucus convened by the National Counter-Terrorism Center (NCTC) and the United Nations Office of Counter-terrorism (UNOCT) Nairobi office, held at Movenpick Hotel in Nairobi.

The event themed 'Protecting Critical Infrastructure Systems in Public Spaces from Terrorism' was held from 7th to 8th September 2026. The keynote address was delivered by His Excellency, the Prime Cabinet Secretary Hon. Musalia Mudavadi.

Mr. Kibiego Kigen, EBS, OGW, the Director-General NCTC Kenya stated: 'Our success rests on solidarity and a shared resolve to innovate contextualised, African-led solutions that eradicate the threats of terrorism from our region and across our continent'

Discussions addressed evolving terrorism threats to critical infrastructure and publicly accessible spaces such as malls and market places as a global challenge. The solutions proposed included strengthening infrastructure resilience by deepening awareness of shifting terrorism tactics, and advancing risk-based protective security measures. Recovery capabilities are to be strengthened by inter-agency coordination and regional emergency response frameworks while promoting public-private partnerships and knowledge exchange across borders.

IEK Represented at 5th Nairobi Caucus by the National Counter-Terrorism Center (NCTC)

Tuesday, 8th September, 2026

While extending appreciation to the organizers for inviting IEK's participation in the Caucus, Eng. Grace highlighted the significant role engineers play in the design and construction of critical infrastructure.

She emphasized the value of involving engineers right from the conceptual design stages for more resilient buildings and infrastructure, and the need for a framework that protect engineers involved in the design, installation and maintenance of critical infrastructure.

The event attracted 200 participants from 24 countries (member states).

IEK Council Retreats to Sagana for Intensive Governance and Leadership Training

Thursday, 10th September, 2026

IEK Council convened at the Nokras Riverine Resort & Spa in Sagana for an intensive retreat focused on Strategic Leadership and Corporate Governance.

Led by expert facilitators, the training was designed to sharpen the executive team's decision-making frameworks, deepen fiduciary awareness, and align Council operations with global best practices in professional association management.

Throughout the two-day program, Council members engaged in high-level discussions covering risk governance, public policy formulation, board-level oversight, and long-term strategic execution. As IEK's membership base continues to grow rapidly across the country, maintaining transparent, agile, and forward-thinking corporate governance is critical.

The valuable insights and actionable strategies gained during the Sagana retreat will directly shape the Institution's policy direction, ensuring that council leadership effectively advocates for Kenyan engineers while upholding the highest levels of professional integrity and service delivery.

IEK Strengthens Strategic Partnerships Across Key Industry Sectors

Wednesday, 10th September, 2026

The Institution of Engineers of Kenya (IEK) paid an official courtesy visit to NAS International Group on Wednesday 10th September 2026. The high-level delegation was led by IEK President Eng. Harrison Keter, accompanied by 2nd Vice President Eng. J.R. Otieno Ogallo and Honorary Secretary Eng. Grace Kagundu.

The strategic engagement centred on opening new avenues for private-sector collaboration, expanding continuous professional development (CPD) initiatives, and positioning IEK as a promoter of engineering entrepreneurship ahead of the 33rd IEK International Convention in November.

Key pillars of the discussion included:

- **Fostering Strategic Private Sector Alliances:** Establishing structured mechanisms for long-term collaboration between the engineering fraternity and leading private sector practitioners.
- **Enhancing Capacity Building and Standards:** Jointly pursuing initiatives aimed at upskilling local engineers, introducing global best practices, and driving operational excellence.
- **Convention Collaboration and Participation:** Positioning NAS International Group and other key private enterprise partners to play an active, valuable role in shaping technical discussions.
- **Advancing Kenya's Engineering Ecosystem:** Creating a cohesive network where private sector investment, local technical expertise, and institutional policy work in harmony.

IEK Future Leaders Attend ESA-KU Sustainability Conference 2026

Thursday, 10th September, 2026

IEK Future Leaders Committee represented by Eng. Nyambedha Clifford Owuor engaged students at the ESA-KU Sustainability Conference 2026 at Kenyatta University on September 10, 2026.

Delivering the keynote address on "Engineering Beyond the Classroom" on behalf of Eng. Yvonne Robert, Eng. Owuor challenged emerging engineers to look beyond academic qualifications and build ethical, socially responsible professional careers.

Key takeaways from the engagement included:

- Professionalism & Ethics
- National Impact
- Transitioning to Practice
- Ecosystem Engagement

The session highlighted the critical need for early industry engagement, with recommendations for the IEK Future Leaders Committee to formalize annual university outreach, mentorship programs, and innovation challenges nationwide.

IEK Secretariat Benchmarks with ICPAK on Delivering World-Class Convention Experience

Tuesday, 8th September, 2026

The IEK Secretariat recently paid an official courtesy call on the Institute of Certified Public Accountants of Kenya (ICPAK) for an in-depth institutional benchmarking session. With both organizations managing large professional registries and organizing high-profile annual gatherings, the peer-to-peer exchange provided an ideal platform to compare strategies, evaluate modern event technologies, and discuss operational best practices.

The interactive session covered a broad range of critical operational areas, including digital delegate registration workflows, hybrid event logistics, seamless protocol management, venue coordination, and value creation for corporate sponsors.

The IEK team gained actionable insights into ICPAK's convention methodologies, that are set to be evaluated for incorporation in planning the 33rd IEK Annual International Convention. This deliberate focus on continuous improvement guarantees that IEK members and international delegates can look forward to an exceptionally memorable convention experience this coming November.

IEK pursues Strategic Partners for the 33rd International Convention - CPF Financial Services.

Tuesday, 8th September, 2026

IEK's Policy, Research and Partnerships Manager (PRP), Anvar Joseph Alot met with Mary Ng'ang'a, Principal Officer for Business Development and Portfolio Management at CPF Financial Services, to explore multifaceted collaboration opportunities ahead of the 33rd IEK International Convention in November.

The dialogue focused on structuring a strategic partnership that delivers mutual value for both organizations. The discussion points centered on event sponsorship, specialized wealth management and financial product tailored for engineers, and joint sessions during the convention.

By aligning with established financial powerhouses like CPF Financial Services, IEK aims to not only secure robust sponsorship support to deliver a world-class convention, but also offer attendees practical, long-term financial planning tools and professional investment avenues.

Preparations for the flagship 33rd IEK Annual International Convention continue to gear up significantly as the Institution of Engineers of Kenya (IEK) actively pursues robust and strategic partners for its annual premier event.

THE ENGINEER'S CORNER

Eng. Nashon Tambo, PE, MIEK
Ordinary Council Member, IEK

1. WHAT INSPIRED YOU TO BECOME AN ENGINEER, AND DID YOU ALWAYS KNOW ENGINEERING WAS YOUR CALLING?

I have a paternal uncle who is a Civil Engineer. My interaction with him as a young man growing up made me aspire to be an Engineer.

I knew engineering was my calling when pursuing my undergraduate degree. The concepts just stuck during lectures and I particularly enjoyed solving the engineering problems.

2. WHAT IS ONE CAREER MOMENT YOU LOOK BACK ON AND THINK, "THAT WAS A TURNING POINT FOR ME"?

I had an epiphany moment of how critical people skills are in our everyday engineering and how that single component can be a make or break in getting work or opportunities.

3. ENGINEERING CAN BE DEMANDING. WHAT KEEPS YOU MOTIVATED WHEN THE PRESSURE IS HIGH?

That is correct, it can get quite demanding. What keeps me motivated or going is the positive feedback I get after giving satisfactoring engineering service to clients. It makes you feel that you are indeed doing impactful work in the built environment and to humanity as a whole.

4. OUTSIDE ENGINEERING, YOU HAVE A PASSION FOR CLIMBING MOUNTAINS? WHERE DID THIS INTEREST COME FROM?

Yes I do have a passion for mountaineering. My interest for extreme sports such as mountaineering stems from a continuous pursuit of self improvement. Mountains do not award points for past performance and this is true for career and life in general. In that way, I found that mountaineering cultivates mental fortitude I require to push the envelope in both career and life.

5. YOU HAVE CLIMBED SOME OF AFRICA'S MOUNTAINS, WHAT HAS BEEN YOUR MOST MEMORABLE CLIMB AND WHAT MADE IT SPECIAL?

Currently, my most memorable climb has to be my expedition up Batian Peak of Mt Kenya via the North Face Standard Route.

It is special because of Batian Peak's reputation. Batian Peak is Africa's second highest peak at 5199m AMSL after Mt Kilimanjaro's Uhuru Peak 5895m AMSL. It is Africa's toughest technical climb and I was able to stand on its summit of 15th August 2026.

6. BETWEEN ENGINEERING AND MOUNTAIN CLIMBING, WHICH ONE HAS TESTED YOUR PATIENCE MORE?

I'd say Engineering has. This is because a big component of the profession is directly dealing with people and such interactions may not be pleasant sometimes but we have to uphold professionalism.

Eng. Nashon Tambo, PE, MIEK
Ordinary Council Member, IEK

7. IF YOU COULD TAKE ONE FELLOW KENYAN ENGINEER ON A MOUNTAIN-CLIMBING ADVENTURE, WHO WOULD YOU CHOOSE AND WHY?

It would be Eng. James Karori. The why is because he has mentioned severally that my mountaineering expeditions pique his interest. I like introducing people to challenging things but with exponential growth curves.

8. WHAT IS THE ONE THING PEOPLE MIGHT BE SURPRISED TO LEARN ABOUT YOU OUTSIDE YOUR PROFESSIONAL LIFE?

That I run competitive marathons, the most recent one being Sanlam Cape Town Marathon in May 2026 where I clocked a finish time of 3hrs 58mins and earned my first star as it became Africa's first Major Marathon and the world's eighth major.

9. WHAT ADVICE WOULD YOU GIVE A YOUNG ENGINEER WHO IS JUST STARTING OUT AND TRYING TO FIND THEIR PLACE IN THE PROFESSION?

I'd advise them to keep the focus in their early years. Young engineers should focus in relevant skill acquisition as they embark on the journey to become professional engineers. With the right skills, everything gradually falls in place.

10. IF YOU WERE NOT AN ENGINEER, WHAT CAREER DO YOU THINK YOU WOULD HAVE PURSUED?

I would have probably been a prolific author. I've been told that I am gifted in this area but I have never quite explored it commercially.

11. KINDLY ELABORATE ON FOS WINNING THE 2026 DIGITALLY FIT AWARDS FOR CONSTRUCTION & ENGINEERING FIRMS OF THE YEAR.

FOS was awarded "Top Digitally Fit Construction and Engineering Firms of the Year 2026" due to its efforts in advocacy of sound engineering practices in the built environment via social media and other digital platforms.

In that sense also mentoring many young engineers who have lacked opportunities for industrial attachments and internships.

12. FINALLY, WHEN YOU LOOK AT THE FUTURE OF ENGINEERING IN KENYA, WHAT IS THE ONE "MOUNTAIN" YOU BELIEVE WE, AS ENGINEERS, MUST CLIMB TOGETHER?

The mountain I believe the Engineering fraternity in Kenya needs to overcome is that of underselling ourselves and accepting the bare minimum with regard to remuneration for the professional services we offer the public.

IEK WEEKLY NEWSLETTER

WEEK 2 | SEPTEMBER 2026

33RD IEK INTERNATIONAL CONVENTION

THEME: Intelligent Systems for Accelerated and Sustainable Growth

DATE: 24th to 27th November, 2026 | **VENUE:** Pridelnn Paradise Beach Resort & Spa Mombasa, Kenya

**TO THE END OF
EARLY BIRD
REGISTRATION**

EXTENDED DEADLINE: 30TH SEPTEMBER, 2026

CONVENTION CHARGES

	IEK Member in good standing	*IEK Member not in good standing	Non-Members
Physical Attendance			
Early Registration (before 30th Sept)	Kshs. 55,000	Kshs. 60,000	Kshs. 60,000
Late Registration (after 30th Sept)	Kshs. 60,000	Kshs. 65,000	Kshs. 65,000

IMPORTANT UPDATES

REWARD MECHANISM FOR MEMBERS SUPPORTING RESOURCE MOBILIZATION

Each mobilized resource is tied to a specific event, and members may choose either a delegate fee waiver or a 5% commission.

AMOUNT MOBILIZED (KES.)	DELEGATE FEE WAIVER
100,000 - 249,999	25% waiver
250,000 - 499,999	50% waiver
500,000 - 999,999	75% waiver
1,000,000 and above	100% waiver

Integrity: Members will not be allowed to mobilize funds from their current employers or organizations where they work, particularly if these are regular or existing IEK partners, to avoid conflicts of interest.

Existing Partners: Contributions from existing or regular IEK partners will be excluded from the incentive scheme. This is intended to motivate members to pursue new partnerships and grow IEK's funding base.

Terms and Conditions, including applicable taxes, apply.

Be visible, grow your Brand **Advertise with Us!**

The Engineering in Kenya Magazine is published by the Institution of Engineers of Kenya (IEK). The magazine has a wide audience amongst Engineering professionals and beyond, including stakeholders and policy makers both in public and private corporate entities.

Advertising with us will bring you to the attention of these stakeholders and give you the opportunity to grow your market. Our print run is 3,000 hardcopies and over 229,000 in digital circulation, bimonthly.

Get noticed in our next edition. Reach out to the IEK secretariat on 020 2729326; 020 2716922 or via email to: editor@iekenya.org

Yours faithfully,

Eng. Grace Muthoni Kagundu

Honorary Secretary

The Institution of Engineers of Kenya
